Paolini also said, "Over the course of their lives, one might say that a dwarf or Urgal Rider would end up refined, as if they had been distilled to the essence of both their individual self and the essence of their race." FAQ[] In a Random Buzzers interview, Paolini revealed further details.[5] What happened to Naegling after the Battle of Gil'ead is a potential story subject. [S2] Never fear, though: many old characters will return in the fifth installment. "The Fork, the Witch, and the Worm" - Tales from Alagaësia (Volume 1: Eragon) is not Book 5. The title of this article is conjectural. However, Christopher still sees the book as a continuation of the same story, being heavily influenced by the events of the Cycle. [S4] New villain(s): The Unnamed Shadow (from Eragon's Guide to Alagaësia) and Nameless One (Jeod's Letter from the Deluxe Edition of Inheritance) are very real. Another "no comment" answer was given to a questioner who asked whether or not Arya or Murtagh would visit the new home of the Riders and also to the question of whether future Riders would be taught the Name of Names. More of Angela's past will be revealed. [S3] Future of the dragons and Riders: Book 5 will reveal the outcome of Saphira and Fimren's mating at the end of Inheritance. Knopf (most likely) A fifth book is a confirmed follow-up to the Inheritance Cycle by Christopher Paolini.[1] Plot summary[] In a live Twitter Q&A session on March 23, 2015, author Christopher Paolini confirmed that Book 5 would be a "continuation" or sequel, though Paolini said that he "may write a prequel at some point". Paolini would like to write a short story entirely from a dragon's point of view. We've compiled a list of confirmed plot details to be found in the fifth book below. Book 5 will also be a "continuation" or sequel, though Paolini said that he "may write a prequel at some point". We would also see the influence of the Eldunari from the Vault of Souls and have Galbatorix's point of view, especially him breaking the Eldunari he stole. Fans of the Cycle will know that Christopher deliberately hid clues and left loose ends in Inheritance which set the stage for events in Book 5 and beyond. The seven words were that Brom whispered to Eragon before he died will be revealed. [S] Main characters: Eragon and Saphira will not be main characters in the book. Christopher's Twitter Q&A[] In a live Twitter Q&A session on March 23, 2015, author Christopher Paolini confirmed more details about Book 5 and "beyond".[6] Paolini stated that he had "Book V all planned and plotted out", but "I just have to finish my other projects first" before writing it. Bwahahaha! #ineverjokeaboutstories" [S] CONFIRMED PLOT DETAILS Dive into this topic in further detail on our Confirmed Book 5 Plotlines page (COMING SOON)! Timeline: Book 5 won't pick up immediately after the ending of Inheritance. Readers will see Eragon and Arya again at some point. Spoilers regarding Murtagh were briefly touched upon with the words "no comment". He said that he has "many stories planned" for "one or more books" related to the Inheritance Cycle. [S2] Tenga: Tenga's mysterious inclusion in Brisingr and disappearance in Inheritance (also addressed in Jeod's letter, an epilogue to the Inheritance Cycle) is likely to be explored in Book 5 - all but confirmed by the author with a "no comment" answer in a Q&A. Q&As With Christopher[] Early Q&As[] On January 26, 2015, more questions were answered[] by Paolini on Paolini.net.[4] Paolini confirmed that Elva was originally considered for the role of "Green Rider" in Inheritance, before he chose Arya instead. Familiar faces, such as Eragon, Saphira, and Murtagh will make a return! Looking to immediately jump to the topic that interests you the most? The prequel story of Brom's life and the story following the mysterious women are among the "smaller stories" planned, while the primary book five "involves something else entirely." Paolini has seven more stories set in Alagaësia, one of which is a series. WHAT EXACTLY IS BOOK 5? However, there will be "some new characters...and many old characters". Paolini stated that he regards the Cycle as being the tale of the beginning of Eragon's long life. We will find out about Murtagh and Nasuada's future. "Light and shadow shall meet in an epic battle" and "Everyone in Alagaësia has overlooked something really, really important with regard to the new peace they hope to establish" were two clues given as to the plot of Book 5, along with the remark, "Beware of shadows that seek to use mirrors." When asked whether or not Eragon would be featured, Paolini said, "no comment".[2] Development[] First Post-Inheritance Interview[] In the first interview given after Inheritance was released, Paolini elaborated on his future projects.[3] Paolini stated that some of his future Inheritance stories feature main characters from the Inheritance Cycle, while others do not. Both the new land Eragon sails off to and the Grey Folk will be in Book 5. He might write about how Murtagh and Thorn went to the North, given his response on Twitter when asked what happens to them: He replied that it would spoil Book 5. "Book V" was the answer given to an unknown question regarding Saphira's egg. Christopher has revealed that some of the hidden groundwork laid for Book 5 in Brisingr and Inheritance has been discovered by fans, while even more remains hidden. He "considered writing a book detailing what happened before and up to the Fall of the Riders". [S1, S2] Angela the Herbalist: Angela's origin story and other mysterious details will be addressed. The author hasn't definitively stated that Book 5 will be the next project after the sci-fi novel's completion, but has repeatedly expressed interest in returning to the world of Alagaësia. What the Menoa Tree took from Eragon will be revealed. Even Galbatorix wouldn't have stood a chance against her". The book would change characters such as Brom, Selena, Morzan, and have it end with Arya sending away the egg, ending the book. Paolini (at least then) was considering writing an epilogue to the series as a whole. When asked a question about the fates of Murtagh and Thorn, Paolini replied with "read book five". The unknown members of the Forsworn may be named. [S1] It's possible that Murtagh (and Thorn's) appearance will include further developments on the fan-wished Murtagh/Nasuada relationship. Hay-on-Wye Book Festival[] At the Hay Festival, Paolini confirmed plans for the book (source?). THE MYSTERIOUS CLUES When asked to reveal any new detail about Book 5, Christopher delivered two cryptic messages: "Everyone in Alagaësia has overlooked something really, really important with regard to the new peace they hope to establish." [S] "Light and shadow shall meet in an epic battle. WHEN WILL BOOK 5 BE WRITTEN? He said, "being a Rider as well seems like overkill to me", but also revealed, "If she were, though, she'd be pretty scary. Book 5 will take place in Alagaësia. "Beware of shadows that seek to use mirrors." [S1] As for who or what these are - we've already met "him/her/it/they/what-the-heck-is-that?" [S2] Christopher has revealed that they are separate entities, and that some characters (including Jeod and the man he was writing to in his letter) know more about the Nameless One than Christopher has revealed in canon materials and interviews. Book 5 will be a standalone novel set in Alagaësia. [S3] The strangers who had their fortunes read by Angela in Brisingr are not the subjects of Book 5 but rather a different future story. Possible future book ideas[] Paolini has confirmed that he has considered the following ideas for future books based on the Inheritance Cycle. [S1] Christopher also has an entire book about Angela planned. Roran will take an important place in the reconstruction of Alagaësia as Lord of Palancar Valley. [S] AN OFFICIAL TITLE The book has no official title and likely won't until just a few months before its release. "Everyone in Alagaësia has overlooked something really, really important with regard to the new peace they hope to establish" was another hint dropped as to Book 5's plot. [S2] Could this include the lands the humans and Ra'zac migrated from? It has been named after a word in Inheritance, but not in any of the other books. Book 5 will reveal more about Angela's back story. Eragon, Saphira, and Nasuada will not return as main characters. The matter of how new Riders would obtain their swords will be addressed. [S2] Eragon and Arya: Eragon and Arya's confusing and open-ended relationship will be addressed - but not necessarily in the ways we expect. Instead, the series will follow new/unnamed characters. For whether or not "there be Eragon/Arya moments in Book 5", Paolini said, "I can't spoil it, but I think you'll enjoy Book V." To a question about Elva "having anything to do with Eragon after Inheritance", Paolini answered "no comment". When asked whether or not Eragon would be featured, Paolini said, "no comment". Before Christopher tackles Book 5, he's working on finishing his sci-fi novel, code-named "TSiaSoS". The story of Eragon, Saphira and the Menoa Tree will be continued. The author sees the book as a continuation of the same story, heavily influenced by the events of the Cycle, but featuring new main characters. Short Stories[] Fork, Witch, and Worm stories[] Paolini had been saving up the following short stories, both of which are in The Fork, the Witch, and the Worm: A short story involving Murtagh and Thorn that is set Post-Inheritance which involves Murtagh fighting off a group of soldiers with a magic fork.[7] A story in which the main character was an Urgal.[7] References[] Christopher Paolini has consistently kept fans up to date on his current and future projects. [S] Murtagh and Roran: Fans looking to see more of the two warriors will be happy with Book 5. The tale of Brom's life and how he became a Dragon Rider. [S1] We have, however, met the new main character. "Light and shadow shall meet in an epic battle" was a clue given as to the plot of Book 5. Little baby dragons? However, other fans stick to more "complete" titles, such as Inheritance Cycle Book 5 and Eragon Book 5. Brom's seven words will be addressed in a short story aside from the main cycle. A probable guess would be for Rhûnon to modify the Rider's swords recovered from Galbatorix, because that would not contradict her oath, or the Name of Names could be used to remove her oath. [S2] TEASED PLOT LINES New lands: It's likely we'll see an extended map of Alagaësia, further cementing the idea that we'll explore lands beyond what we saw in the first four books. However, Paolini voiced his concerns that making Elva a Rider would make her "overpowered", citing her "amazing ability". This book would all be in 3rd person such as the previous books. Prequel starting with Galbatorix's first dragon dying, then moving on to a brief tale of the rebellion and Galbatorix's rise to power. WHAT WILL BOOK 5 INCLUDE? [S1] If not in Book 5, he'll definitely appear in other stand-alone books. This new book is a standalone story narrated by Eragon and featuring three original short stories. He also confirmed that, like human and elf Dragon Riders, dwarf and Urgal Riders would "slowly acquire pointed, elf-like ears over the course of five-ten years" and "acquire greater grace and strength", though dwarf and Urgal Riders would "never quite match the pound-for-pound strength of an elf, even if, objectively, they're stronger (such as with a Kull)". Dwarf or Urgal Dragon Riders may be introduced. Eragon will help from the elves in training new Dragon Riders. The name of the land that the humans and Ra'zac came from, and the reason why they left that land, may be revealed. Spirits will play a part in the future. The big question: will Christopher stick with his one-word-title scheme or break free of that constraint to mark a new chapter in the series? He also confirmed that it was "possible" that Elva could become a Dragon Rider in the future. Shortly after completing the Inheritance Cycle in 2011, the author announced that a fifth book, referred to by fans as "Book 5," will someday be written. We'll find out! [S] We'll see the beginning of the new generation of dragons and Riders, and it's a very real possibility we'll see dwarf and Urgal Riders. You may also enjoy: How the Inheritance Cycle was originally going to end Book 5 will also take place in Alagaësia. [S3] It's worth exploring other teased plotlines that Christopher has confirmed will be explored and included in future books, but did not specifically state they would be in Book 5. Many of the community's most burning questions are set to be addressed. Fans have affectionately referred to the book as Book 5 since the beginning. Yes - someday. Readers will find out more about Angela's master, Tenga, and the possible idea that there is another race of humanoids (potentially the Gray Folk). John Jude Palencar (most likely) Alfred A.
